

# D.C. outside bell WK 975

The d.c. outside bell WK 975 is an additional weatherproof electro-mechanic signalling device for d.c. operation.

## Possible application areas:

- railways
- mountain railways / funicular railways / ski-lifts
- industry
- military engineering
- rescue
- security

## Features:

- weatherproof
- for robust outside use
- for additional ringing signalling
- special response sensitivity
- two-tone sound
- secure against cross poling
- separate connection chamber

## Technical data:

volume at 1 m distance  
operating voltage  
current intake  
splash-proof, type of protection  
housing made from glass fibre reinforced plastic  
(polycarbonate)  
bell shells made from die cast light alloy  
polarised system  
radio noise interference degree  
weight  
colour  
dimensions L x W x H approx. in mm

## Part no.:

60123

## Authorisations:

- ZZF-authorisation 119/025
- CE-marking

## Applications:

- in loud rooms
- in damp rooms
- for outside
- for indoor rooms
- for d.c. operation
